OFFICIAL NEWSLETTER OF THE LAKE ST. CLAIR WALLEYE ASSOCIATION

# WALLEYE WORLD

DEDICATED TO THE PRESERVATION OF MICHIGAN'S WALLEYE FISHERY (SINCE JULY, 1976)

December 2017

<http://www.lscwa.net>

*By Rob Barnes*

Why fight the lines and engage in combat shopping at big box stores when you can hit the rivers for limits of walleyes? After recovering from my annual thanksgiving turkey coma I decided to see if my dad wanted to get his Black Friday on. This time instead of fighting shoppers for low grade consumer electronics we were hoping to be fighting limits of walleyes. One of the benefits of being a club member is being part of a network of friends that will share information to help you get on the bite. I reached out to one of my buddies to ask if anything was going on in his neck of the woods on the St. Clair River and he pointed me out to a 1.5-mile stretch of the North Channel to check out. We motored out to the furthest point of interest up river and shuffled around until we marked fish on the sonar. Brisk south west winds made boat control a challenge but not impossible. The water surface temperature was merely 44 degrees. 2 passes with vertical jigging and no fish. We did one more pass in shallower and decided it wasn't going to be happening there. We ripped back to an area just north of the mouth of the North Channel in Lake St. Clair and stayed glued to our sonar unit to see if fish were to be found. Bright yellow arches on the Lowrance unit! They were there and hugging tight to the bottom. Down scan sonar frequencies helped confirm our findings. Pass number 1 began in 63 feet of water and right away we were into the walleyes. Slow lift, pause, drop, and then the faintest of ticks from a hungry fall walleye inhaling your jig from the depths. It's hard to beat a good jig bite. Our first pass yielded 5 fish to the livewell. We continued our passes until we had our 2-man limit. Quality fish were to be had to include two 5lb hens. Next year, skip the shopping and enjoy the fall walleye fishing opportunities that are to be had in our local rivers with friends and family.

# BINGO

Prizes are mounting every week. Come on out give it a try and support your club. Prizes total **\$2200** every night or more!

20791 E. 13 Mile Rd  
Roseville, MI 48066

## Sundays

Doors open at 4PM • Play at 6PM  
*We are always looking for volunteers.  
See Rich at our meetings or events.*

## DICK HUYAERE'S BUCK POLE

*by Richard Koch*

LSCWA trailer was set up at Dick Huvaere's Richmond buck pole contest Nov. 15th-16th. We raffled off two propane heaters with covers with proceeds going to P.A.T.H. Also Joann and Richard had a Walleye filleting demonstration. Don, Rick O, Richard, Joann and Jeff manned the trailer for the event.

# Happy Holidays

*Lake St. Clair Walleye Association would like to wish you and your family a Merry Christmas and a safe and happy new year. May 2018 bring you health, happiness and lots of walleye.*

## President's Corner

*by Richard Benson*

Wow, where did 2017 go? It seems like this year went by so fast, but what a year we had! From the Novi Show, our Derby Season and tournaments, it seemed as if everything came and went so fast!

We have some really memorable things that took place this year, so let's look back at a few. First, Keith Krych caught the biggest fish entered in LSCWA derby history with a 12.78lb monster walleye! I was lucky enough to be with him that weekend when he landed it in the Detroit River, congrats to Keith. The rest of the derby season saw some great fishing on both LSC and the rivers. Next, our 3rd May Madness Tournament was a huge success, with 42 boats entered and many sponsors supporting us we had our biggest tournament yet!....next year we are hoping to surpass that as well. Continuing on into summer we, with assistance from MUCC, were able to send 12 kids to the MUCC summer camp this year. In addition to that, we also awarded 2 \$500 scholarships this year to 2 different club members' children! Our perch and pig tournament participation was also on the rise with 19 boats entered this year.

Our club membership has risen by approximately 25 members since this time last year, our fundraisers are enjoying continued success with a new investment fund being started to insure the future of the LSCWA for years to come.

Looking to 2018, we already are making plans for Cold as Ice with WCSX Radio and our own kid's ice outing on Jan. 27th & 28th. Our derby season will be seeing a few changes and we are already planning May Madness 4 for May 19th.

Lastly I would like to remind you of our upcoming December general membership meeting and annual Christmas party. It will be Dec 20th, at 7:30 but please arrive early to help set up and get a seat. Please remember this is members only and to bring a dish to pass, proteins are always in short supply it seems, and hors d'oeuvres are always welcome.

This is YOUR club, be part of it.  
Merry Christmas and a Happy New Year,  
Rich Benson, President LSCWA

# 2017 SEASON ON LAKE ST. CLAIR

by Jeff Vantorre

2017 was a great year on Lake St. Clair . probably one of the best years that I can remember and as far as catching bigger fish to add. Anyone that is anyone knows that in the spring time majority of the guys that fish LSC head over to the Canadian side and fish the Thames river area, Belle Hump, Luke's and so on. Well this year was a little different, early on the weather was so spotty and shifty that you couldn't make the run over to fish that area and if you did the water was trashed. I focused on the American side. With May Madness tournament coming up we had to find a program and find one quickly. But right now, we won't tap too much into last year's May Madness event we will save that for another time!

Crawlers are king on LSC I don't care what anyone says about that. If you are going out walleye fishing on LSC 95% of the guys that you talk to are telling you that they are running meat and pulling harnesses and I'm not here to tell you that doesn't work ... it does and it does very well. This year I wanted to focus in catching these fish on Crankbaits I know that a lot of times guys do not like to run cranks because they don't want to deal with the bass and Muskie but let me tell you it's not really that bad if you don't mind the sacrifice of losing a bait here and there it can really pay off for you in the long run. One of the biggest benefits of running cranks is covering more water than you would when you run harnesses. Biggest tip that I can give you when running these cranks is speed, Speed is key I was pulling these baits sometimes as fast as 2.3 - 2.4 SOG finding the edges of huge weed flats and just running my outside offshore planner boards along the edges and triggering the fish to bite.

The crankbaits that I fished the most this past season were Smithwick Top 20's, Rapala DHJ12's, Flicker minnows size 11. These are all pretty big size baits and they produced some pretty good-sized fish, with my biggest this year on LSC just pushing the 9-pound mark, and I know that some other members caught fish well into the 7 and 8-pound range as well. The later in the year I started to use some deep walleye Bandits and Reef Runner 800's. Other LSCWA members also started to run cranks this year as well and there are some days that they would start off using harnesses and switched over to cranks and upgraded all their fish with bigger ones and this was key during the LSCWA derbies for the 2017 season. The best colors that just were lights out for myself were JT customs Sekya perch, bad girl, huff and puff. Stock color top 20's in black and chrome, purple perch, pretty much anything that was a natural color was the ticket.

The walleye bite was so good on LSC this year for myself and other members as well that myself and BOD member Eric Lenz were blessed to have the opportunity to shoot a short segment on an episode of Michigan Out of Doors with Jenny Olsen and show off what an outstanding walleye fishery we have in our backyard and an AMAZING club that we belong to! If you're member of the LSCWA you are surrounded by the right people to help you make yourself a better walleye fisherman, everyone in this organization is very approachable and will help out anyone that needs it. No question is a dumb question. If you don't think it will work on LSC it just might!

## EARLY SEASON ICE FISHING

by Tim Muir

With any luck by the time 2018 arrives we `will be on the water fishing. First ice can be one of the best times to ice fish. Around these parts smaller inland lakes like Stoney Creek, and the canals and marinas around Lake St. Clair have the first safe fishable ice. Ice thicknesses can vary in short distances so always keep safety first (see my other article).

What makes first ice potentially so good is the fish are still in there fall feeding patterns. The ice isn't too thick yet so there is still a good level of oxygen and some weed beds that can hold fish. Panfish tend to be shallow early on due to those factors plus the availability of food. There will still minnows and other small bugs/invertebrates in the shallow water. Look for fish to be roaming these shallow water areas looking to finish off their fall feeding frenzy and then start to head to where they will spend the winter once the oxygen and light levels start decreasing.

On first ice that is clear and still relatively thin with no snow cover, making a bunch of noise and moving around could scare fish into either staying on the bottom or moving out of that area all together. If possible try and drill multiple holes right away as to keep noise to a minimum. Staying to the edges of groups of anglers might be a good option if their noise scares the fish away.

Have multiple kinds of bait handy. I will always have minnows and waxworms with me along with other live bait as well as soft plastics and spoons. To start, my preference is to deadstick a minnow and use a different bait and slowly jig it. A jig with a waxworm/soft plastic or beaded spoon is a good option. Don't be afraid to change baits and move often if you are not catching anything. I will wait 10-15 minutes before making a bait change or move. Multiple moves and or bait changes may be needed before dialing in on the fish.

# ST. CLAIR RIVER MUSKY

by Shawn Elliott

We were on our second drift at the mouth of the St Clair River, Robert, Joey, and myself, just out on Lake Huron. Pulled up to the red buoy, just off the channel, in about 35 FOW, with hardly any wind, and air temperature about 40 degrees. Put down the troller and all three of our lines went it.

I noticed that my line hooked into something, with no give, so I thought it was a snag. After a few pulls, it felt like a log or something that might come up. I thought it might be a big catfish, but there was no head shakes. Then it just took line, lots of line. Finally, got it to the side of the boat and Robert grabbed it, as our walleye net was way too small. Took a few pictures and put that smelly fish back in the lake.

A true great lake monster and a catch of a lifetime!

# OCTOBER TREE HOUSE GET-2-GETHER REPORT

by Richard Koch

October tree house get-2-gether was at Rose's family diner, 31301 Harper Ave. We talked about turkey, hunting, perch fishing, and the weather. Attendees were Joann Koch, Richard Koch, Dale Billings, Dan Schmidt, Curtis Patton, John Sulkowski, Gary Rowoldt, and Bill Houck. Many Walleye were caught by those in attendance. Look for the 2018 get-2-gether schedule in next month's Walleye World.

# ICE SAFETY

by Tim Muir

It won't be long now(hopefully). The hard water season will be here soon. First ice can be some of the best ice fishing of the winter. First ice can also be very dangerous. Extra caution needs to be used early in the season. Ice may not be the same thickness from one spot to the next. NO FISH IS WORTH YOUR LIFE.

Check with one of the local bait shops in the area. They normally will have some info on ice conditions. Use that spud in front of you often. Don't go alone. Its bad enough to get in trouble out there or go thru but if you are alone it can be worse. Get a set of ice picks, Wear a life jacket, keep a dry set of clothes in a waterproof bag, have a throw rope, pull your gear on a sled to spread out the weight. Its small things like that that may save your life.

Be safe this winter and good luck. Hopefully Mother Nature will provide us with some decent fishable ice.

An infographic titled "Ice is Never 100% Safe!". It shows a cross-section of ice with different thicknesses. On top of the ice are icons for a person on skis, a person on a sled, a snowmobile, a red car, and a green pickup truck. Below the ice, the thicknesses are labeled: 4", 5", 8-12", and 12-15". The 4" and 5" thicknesses are shown to be insufficient for the car and truck. The 8-12" thickness is shown to be sufficient for the car but not the truck. The 12-15" thickness is shown to be sufficient for both. At the bottom, it says "Minimum Ice Thickness Guidelines For New Clear Ice Only" and includes the MNDNR logo and the website mndnr.gov/icesafety.

# LSCWA Kids Ice Fishing Outing / WCSX Cold as Ice

by Bob Barnes

It's that time of year again. The holidays are here, the air is crisp and soon it will be time to hit the ice for some hard water fishing.

As in years past, we will be teaming up with WCSX for our kid's ice fishing outing on 1/27/18 and Cold as Ice fishing tournament 1/28/18. Both will take place at Lake St. Clair Metro Park day sail area.

The kids outing is 9 am – 2 pm, a heated tent will be provided by WCSX, prizes for all the kids, food and hot coco. This event is open to all children and is free.

Cold as Ice will start at 7 am all entrants must check in and depart to the ice from the site. All rules and entry information can be found at <http://wcsx.com/>.

Let us all hope for good safe ice to make both events successful. Thank you WCSX for your support of the club.

# BRAGGING BOARD

Steve with a couple of nice perch from his Simcoe Trip

Jeff Van Torre with a nice walleye measuring 30.5" just pushing 11.5lbs

LSCWA member Calvin Doctor and his Charlevoix county public land buck

Dec 1st outing on Lake Erie

Bob with a couple of nice black friday walleye

## 2018 TREE HOUSE SCHEDULE

WED.	Location	8:30 AM	Bring a Friend
Jan	Benvenuto	586-493-6002	1.5 Blks S of South River Rd.
31	39539 Jefferson	On West Side	Great Food, Near Bill Houcks
Feb	Strawberry Fields	E of I-94 on 23 Mile	Chesterfield 48047
28	51070 S. Foster	586-949-7740	Dave's 75 Birthday (IF)
Mar	Bob Evans', Chesterfield	West along I-94	On Hall Rd, Nr. Walmart
28	45140 Corners Ct. 48047	East of Gratiot	Near Menards
April	Copper Penny	S. of 10 Mi	St Clair Shores, MI
25	24975 Harper	West Side	
May	Rose's Fam Dining	SCS	Always a Great Time
30	31301 Harper Ave	West Side; N of 13 Mi	Special Prizes
June	South Side Grill	Warren, MI 48091	Coney Island
27	2769 Nine Mile Rd	586-754-2940	Advertiser, Etc.
July	Mack Ave. Grille	Grosse Ppt. MI	1- Mile North of (big) St Johns
25	19842 Mack Ave	West Side	Hospital; New Place
Aug	The Golden Greek	Fam Reastaurant	At Light near Ice Hockey
29	180 N. Groesbeck	Mt. Clemens	586-463-8788
Sept	Country Inn	Macomb Twsp	Sponsor; inside small Mall.
26	Romeo Plank Rd	Next to Ace Hardware	North of 23 Mile Rd.
Oct	Boulevard Grille	Behind gas station	(was Linda's Place
31	27200 Crocker Blvd	Harrison	North-West of Jefferson 1 bldg
Nov	Gus' Coney Isle	Chesterfield	Turn into Show Prkng Lot; go 2 Texas Rd House
28	Gratiot just S. of 23 Mile	West Side	Make RT. onto 23 mi East, then Rt behind Gas Station
Dec	No Tree House	See You in	Pot Luck Gen'l. Meeting
(Skip)	for December	2019 (I hope)	

## Lake Simcoe Perch

by Steve Sharon

I try to go every year so this time I went on October 12, 2017. I know a guy in Pefferlaw who owns The Peninsula Resort and 2 cottages one on the lake and the other one on the river. I always book the cottage on the river because you can dock 3 boats there and right next to the resort there is another free launch that you can use. This is so convenient because you arrive, launch your boat, and drive down a 1/4 mile down the river and you have arrived at your fishing spot. It's really nice in the morning to just wake up, walk down to the dock, unite your boat and off you go.

I have fished Simcoe in the fall as well as in the winter for many years, but I find that October is prime time for this lake. The perch school up to fatten up right in front of or near the Pefferlaw River so you don't have to travel too far to the fishing grounds. Using minnows is your best bet. Nice big fat shiners- the bigger and fatter ones result in a catching the biggest perch. Me and my friends only fished on Thursday night for two hours and all day on Saturday because the weather was so bad on Sunday

but who cares we caught so many jumbo's that we didn't want to clean the wimps anyway. We fished out of two boats and we kept only a few fat 9" the rest were all 10"11"12" 13" we even got some 14". We were surprised to see what monsters grow there.

We always use the same techniques as Don and Mr. Perch have taught us at the club. Lately I have been using the tight line type of perch rigs.

Last year the fish were so hungry that I just used Jenson Eggs on all three hooks and used them all day. It's not always perch heaven sometimes they're finicky but using big fat shiners sure increases your odds. I think if you could see under the water you'd be amazed at how many giant perch are down there. Anyways, this is not a commercial for Pefferlaw Resort, I'm simply relaying my favorite perch excursion. I've stayed at other places as well and they too were great. It would be nice for our club to plan a perch trip next year. We could even make a contest out of it.

## CHRISTMAS SHOPPING

by Rich Benson

While you're doing your Christmas shopping this year, please consider one of our many sponsors. I realize the big-box stores may offer some deals, but the support our sponsors give us year round and the service after the sale just isn't there for the most part with the big stores. Also, consider asking for gift certificates to one of our sponsoring stores, then you can pick out that custom lure you've been wanting ;)

Merry Christmas, Rich Benson
